College Grove United Methodist Church Engineering & Maintenance

The white mini twin floodlight is great for lighting driveways, entryways, decks, and yards. Its small size allows for unobtrusive, discreet mounting. It can be mounted on walls or under eaves. The light heads are adjustable to aim light where desired. Included with the fixture are two 150 watt quartz halogen lamps.

Weather-resistant housing will not fade or rust.

Hinged lens frame allows easy re-lamping
